
IDAHO HORSE BOARD

The Idaho Horse Board was created by legislative action in 1987. The program became effective on July 1, 1988. Seven board members are appointed by the Governor to represent a cross section of all equine related interests, including areas in breeding, racing, competitive events, trail and pleasure riding. The funding for this program is derived from a fee attached to brand inspections of horses. State inspectors collect this fee at the time horses are inspected. Funds collected are given back to the horse industry in the form of grants to further interests in *PROMOTION, RESEARCH, AND EDUCATION.*
